

## Enrique Yeferson Vizarra Matta

Full-Stack Web Developer

[vizarramattay@gmail.com](mailto:vizarramattay@gmail.com) | (+51)931276162

After being in the consulting industry for over three years, I decided to follow my passion to learn how to program. Some may say it was a very bold decision to learn to program from scratch, but I believe that everything is possible with preparation. I am currently looking for a position as a full-stack developer to level up my knowledge and skills, and continue developing as a professional.

### TECHNICAL SKILLS

- |                 |              |                |
|-----------------|--------------|----------------|
| ➤ Ruby          | ➤ CSS        | ➤ PostgreSQL   |
| ➤ Ruby on Rails | ➤ JavaScript | ➤ React        |
| ➤ HTML          | ➤ Node       | ➤ Git / Github |

### EXPERIENCE

**Proyectia Soluciones Integrales S.A.C**  
*Electrical Supervisor*

**Lima, Perú**  
**2019-2022**

- Responsible for the preparation of plans, electrical pre-inspection reports and municipal procedures in order to comply with state regulations and safety policies.
- In charge of the preventive and corrective maintenance team of electrical panels to ensure correct operation that will keep staff and facilities safe.
- Ensured that all deadlines were met so that no pending tasks blocked other team member's work. This meant that we always complied with state security regulations and policies immediately, so production was never paralyzed.

### EDUCATION

[Codeable](#)

**Lima, Perú**  
**2022**

- Intensive full-stack web development education program (full-time, 6 months).

[San Luis Gonzaga University of Ica](#)

**Ica, Perú**  
**2017**

- Professional career in Electronic Engineering.

### ADDITIONAL

- *Languages*: native Spanish, intermediate English b1 (powered by Codeable).
- [CSS](#) course taken on [PLATZI](#).
- [JavaScript](#) course taken on [PLATZI](#).
- Basic [AutoCAD](#) made on the [UDEMY](#) platform.
